Reported British request to U.S.

Washington, August 15:10 An authoritative diplomatic source said that the British Government has asked the United States to prevent Chiang Kai-shek from launching any military offensive against Communist China.

The request was said to have been made through the U.S. Ambassador in London, Mr. Lewis Douglas.

Upon the outbreak of the Korean war, the U.S. interposed the Seventh Fleet to prevent Chiang's forces from attacking the mainland or the Communists from attacking Taiwan. However, the British were said to think that Chiang Meanwhile, relief is being violated this arrangement by mainland.

Trade prospects between the Far East and East Africa are being surveyed by two Indians -a newspaper editor and a director of a chain of stores -irom Kenya.

They are Mr. C. K. Kanji. Director of the Pandya Business Group, and Mr. R. B Pandya. editor, of vernacular (Gujerati) "Kenya Daily Mail" at Mombasa, and Chaliman of the Group.

They have arrived in Hong Kong on their way to Japan and

Mr. Kanii told the "China Mail" yesterday that he and Mr. Pandya will make a longer slay in Hong Kong on their return trip to surver the possibilities of promoting tride between Hong Kong and ---

He added that East Africa consumes a considerable amount of Chilnese, Japanese and Indian products, but Jupanese piecegoods, cotton and rayon, were amore popular because of their quality and low price.

He said that this is their first visit to the Far East and they were impressed by what they observed here since their arrival

Swatow is today China's key coastal part with ships of practically every maritime nation using its harbour to load Chinese products for overseas or to discharge European cargoes needed by China.

Swatow has sprung into shipping prominence for two primary reasons. Firstly, unlike Amoy along the Fukien coast close to Kinmen Island, Taiwan's outer defence bastion, it is less affected by Nationalist naval activity for the protection of the island fortress; and secondly, with Amoy out of the picture Swa-

Indian Independence

Hong Kong's Indian contmunity commemorated the third anniversary of their country's independence yestorday.

The celebrations began with proyers at the Sikh Tomple followed by an impressive flag-holsting ceremony at which Mrs. P. K. Payri officiated.

Mr. U. Singh, President of the Hong Keng Indian Association, in a speech referred to the debt of gratifude that India owed to Great Britain in glying the nation independence.

"India," he said, "stands for peace—a policy that she will always follow uniter the leadership of Pandit Nehru, Prime Minister of India; who follows the teachings of our beloved Mahatma Gandhi, Father of the Indian nation."

The celebrations ended with the serving of refreshments.

Cross-examination

(Continued from page 3) Fourth accused said "one thing we can assure you; we've brought the cash with us tonight." He added he still had some infaor cuestions to ask, and they were Indication of the number of passengers on the number plates. He said it would be better if there were no restrictions because it a family wanted to go for a pienle and if the number of pussengers is restricted, the family would have to get another car.

Mr. Murphy said they expected Mr. Clunie to be a gentleman as they were, and as such to give them full 'co - operation. Mr. Clunie replied: "I am a polico officer and I am doing something contravening the law, which is a very grave matter."

Mr. Murphy then sald they of must be very careful and If ever the matter came out he. Murphy, would be sent back to America, the others to gaol, and Mr. Clunic would be trans. forred.

Further discussion then followed as to the number plates to bo issued, and a question arcse as to a letter which Mr. Clunie was to write. Witness heard Mr. Clunic ask what he would get out of the deal and fourth accused told him it would be 10 per cent of what he would get, or about .000.8g

Rest of money

Mr. Clunic then asked what would happen after the company was approved, and fourth accused said he would get the rest of the money. Mr. Clunie would be given 50 per cent if licences were partly granted, and 40 per cent on the rest when issued.

Mr. Clunic next asked how soon (would the company start business if the licences were aranted, and he was told by granted, and he was told by fourth accused it would be a month, maybe two. Mr. Murphy said he did not

want Mr. Clunie or the Chinese to fault with him afterwards. Fourth necused asked what was the licence fee for a black plate cor, and Mr. Clunie replied it was \$15 a seat.

Bhortly after this witness saw first accused take from his pocket some \$500 notes which he held in his hand. Mr. Clunie then got up, holding a letter in his hand. First accused took the letter from Mr. Clunic, and Mr. Murphy took the money from first accused and handed it to Mr. Clunie, who counted the notes in his hand, and said: "God save the King for final victory."

Witness said he did not know previously that this was a sign or signal, but shortly afterwards a party of police entered the

INDIAN PLAN WAR

Proposal to name "Little Six" UN Commission

PLANS FOR FREE KOREA

Lake Success, August 14. Sir Benegal Rau of India said today that his country had proposed a commission of the "Little Six" members of the Security Council to promulgate the United Nations' war aims and study plans for the postwar future of a free Korea.

Sir Benegal proposed this as an informal suggestion to the Security Council and said he was prepared to put it in formal resolution form if this suggestion finds sufficient support in principle. He told newsmen he would not offer the new plan as a formal resolution until he had pledges of support for the measure.

The Indian plan would establish the six non-permanent members of the Security Council as a body to study all plans for ending the Korean war and for the post-war future of the country.

NO HAT TRICKS IN PARIS, BUT HATS IN THEIR OWN RIGHT

Iris Ashley

No Paris fashion story can be complete without details of the new season's hats from the mo-

There is a big difference between the hats designed each season by the Parisian modistes and the headgear designed by the conturiers and worn with their clothes at the collections.

For the past ten days we have been showing you hats and bits of nonsense (like the Dior "chignon") from the couturiers. These are intended essentially to be a part of the new silhouette.

On the other hand, the modistes design hats which are intended not only to go with the new fash-ion but to be sufficient in themselves. Simple classic clothes from last season, says the modiste, can be given new life by a few new accessories and-since time immemorial—a new hat I

One of the few couturiers to show hat designers' hats as well as his own was Marcol Rochas. On the left of Francis Marshall's drawing is one seen at Rochas's collection. It is of tan velour with black and brown quills, is worn very straight on the head, and was designed by Legroux Soeurs. The wearer is holding one of Marcel Rochas's frivolities, a little hexagonal gold basket fitted up as a minodiere.

Top right, talking to Monsieur Auzello of the Ritz, you see a lady wearing another Legroux hat. This coachman-like style is in cream velour with a small cockade of black ostrich feathers. Incidentally, just behind this group you can see Madame Schiaparelli wearing the hair-concealing turban she has made

COLGATE HELPS STOP TOOTH DECAY!

Exhaustive Resourch by Eminent Dental Authorities Preves How Using Colgate Deutal Cream Halps Stop Tooth Decay Before It Starts1

Now dental science offers proof that always brushing teeth with Colgate's right after eating helps stop tooth decay before it starts! Proof—based on hundreds of case histories, two years of continuous research at leading universities—the most conclusive proof in all dentifrice research on tooth decay.

Under the direction of eminent dental authorities, one group of col-lege men and women always brushed their teeth with Colgate Denta Cream right after eating-while another group followed their usual dental care. The average of the group using Colgate's as directed was a startling reduction in number of cavities-far less tooth decay! Tho other group developed new cavities at a much higher rate.

Modern research shows tooth decay is caused by mouth acids which are at their worst after meals or macks. When you brush your toeth with Colgate Dental Cream right after eating, you help remove acids before they can harm enamel. And Colgate's penetrating form reaches cravices in teeth where food particles often lodge.

In All Dentifrice Research On Tooth Perayl The Colgate's now at your dealer's is the same formula used in the tests. Colgate's contains all the necessary ingredients, including an exclusive ingredient, for effective daily dental care. No risk of irritation to tissues

GERMANY'S ROLE IN THE DEFENCE OF EUROPE

Washington, August. 14. Some American officials profess to feel that the proper formula for the creation of a stronger Germany may have been delineated at the last proposal of Winston Churchill for unified European approach to the problem of North Atlantic defence.

A delegation from the British Mr. Churchill's motion at Strasbourg for the creation of a European army under a European Defence Ministry is regarded among experts as possibly one of the keys so long sought by the Allies in their efforts to unlock the strongbox of German industrial and manpower potential while, at the same time, avoiding the dangerous political obstacles surrounding approval of progressive and economic concessions to Western Germany as such.

Strasbourg talks on European army

Strasbourg, August 14. Political leaders & Western Europe today began talks on the plan for a unified European army.

Urged on by Winston Churchill's warning that there is "not a day to lose," the European Council's Consultative Assembly speeded action on Mr. Churchill's dramatic proposal to pool the soldiery of Western Europe.

on security arranged afternoon and evening meetings to map a moster plan for consideration by individual Western governments.

The security group, comprising about 15 of the Assembly's 125 members, has little concrete tablish a unified trading area and a material on which to begin.

Churchill's adopted by the Assembly last Friday, called only for mediate creation of a unified European army, under the nuthority of a European -Minister of Defence, subject to proper European democratic control and acting in full co-operation with the United States and Canada." Leon Maccas, Greek Minister of Marine, said he would propose immediate, direct consultations between the security group and

He told a reporter that the Assembly's group would thus save valuable time in drafting a plan suitable to the various goveraments. Presumably, the Assemblymen would have the advice of government defence ex-

The Assembly's plan, Mr Maccas declared, would not define technical military steps to be taken in creating a unified European army. Rather, it would seek first to set up a European defence ministry, which in turn would be responsible for unifying the (White Anta Extermination Dept.) armed forces of the member

Mr. Maccas said there still is strong sentiment in favour of appointing Mr. Churchill Euronean Defence Minister, despite statement last week that he was not a candidate.

Others feel that Mr. Churchill's age-75-would preclude his ac-Still unanswered is the ques-

tion of how the European army, if it is created, would fit into the Atlantic Pact defence system. The Assembly President, Paul Henri Spaak, of Belgium, told a news conference on Saturday that the European army would strengthen rather than weaken the Pact. But he did not explain their possible relationship.

Mr. Churchill himself returned a reporter's written question on this point with a brief "no com- opinion.

America's part

America's part in the project s also an unknown quantity. Assembly speakers have agreed unanimously that Western Europe's defences depend on U.S. arms and equipment, ranged a general debate on draft ter.

San Francisco, August 14. More than 38,000 co-operative organisations with a membership of 20,000,000 are now functioning in Communist China, Peking Radio reported tonight.

These co-operatives are mainly supply and marketing bodies operating among the peasantry, but they also include an increasing number of consumers' co-operatives based in cities, the broadcast said.

More than 93 per cent of all |---co-operative members are Manchuria and in North and East China. Most of these members are described as emancipated peasants who have had land distributed to them under the agrarian reform programme.

The main function of the cooperatives is to help the pensants to dispose of their surplus farm products and keep them supplied with dally necessities and the means of production, the broadcast said. "Thus, it is estimated that by

the end of the year more than 10,000 co-operatives in Manchuria will have sold goods to the value of some 2.9 million tons of grain to the peasants or approximately one-fourth of the total volume of retail business in Manchurla," the broadcast added. ing preferential treatment from the State, the co-operatives can supply their members with goods fleeting rising tendencies in the at prices even tower than those raw wool market here and abroad. in State retail shops, prices which Most mills were on the sidelines, are five per cent lower in general pending more definite ideas or than market prices. Paris, August 14. M. George Papandreou, Vice-Premier of Greece, who arrived in Parls Yeslerday on his way Washington, told Reuters "My mission is an economic one-to discuss the possibility of exporting Greek tobacco - though "matters bot general interest may also be discussed."

"Tobacco is not a matter of secondary importance in Greece, He continued. Qur condmic stability largely depends upon st and, consequently, this the social well-being of the Greek people. "A Weakening of this "social stability would spormit this Communist Party to regain the posttion" it ima lost by exploiting b

ENGLAND SCORE FOR TWO WICKETS

London, August 15. England had scored 120 runs for the loss of two wickets at lunch time today in reply to West Indies first innings of 503.

Half an hour before the resumption light rain began to fall again. It was not heavy enough to cause the groundsmen to take any action especially as the ends of the pitch had already been covered.

It ceased after a few minutes but overhead conditions remained bad and England's task was, likely to be made more difficult by poor light.

First scoring could not be ex- utes and began to take toll of the ected at least for some time but slow bowlers. pected at least for some time but nelther batsman tooked to be in any difficulty and raised the score steadily. Hutton was at his masterly best always meeting ball with the middle of his bat. while not attempting any rash arrows in an attack on the bowl-

During one period of bad light. Jones and Worrell tried several bumpers against Hutton but the pitch was too slow to cause them worry and Rutton either ditcked or allowed them to go to the wicket-keeper.

At 47 Goddard brought on Rangadhin with three short lens ready to nounce on any snicks from his stock ball, the offcutter. West Indies supporters clanioured for leg-before when Hutton was hit three times on the pad by Ramadhin but they were in no position to judge and the players themselves did not ask for an umpire's deci-

The 50 was safely left behind as Hutton and Simpson continued to lay their foundation. Valentine was brought on. Twice a leg-break turned almost at right angles and Hutton plainly looked unhappy to see the ball break so

Whether Valentine hit upon the same spot twice, or whether the turf at that end generally had begun to crumple, could not yet be judged, but Goddard promptly? brought up two men to short inkloff and also gave Valentine two short slips.

Bad stroke

Just when Simpson and Hutton appeared capable of making a really big stand, a bad stroke enabled West Indies to gain their first success. A long hop on the off stump from Valentine tempted Simpson to open his shoulders for a hook. Jones fielding at mid-wicket took the catch comfortably as it flew straight at him. The score was 73.

England's big moment arrived shortly before lunch, when the lith West Indies wicket fell at 337 runs to Alec Bedser, who thereby claimed his hundredth wicket in Test cricket.

In addition, Worrell had retired with an attack of giddiness due to stomach trouble, but England let their opportunity allo when they allowed Gerry Gomez and John Goddard to put on 109 runs for the sixth wicket.

Stand of immense value This stand, which lasted almost two hours, proved of immense value in the matter of time. Expectations that the pitch

would take spin were not fuinit-138 ed. Possibly rain on Saturday evening may have eased the turf. Neither fast nor slow bowlers 17 could get anything out of it and only steady length and keen fieldling kept down the scoring. The West Indies did not take

full advantage of the conditions until after the new ball been taken following lunch Then Gomez and Goddard, fol lowed by Worrell, moved the score along rapidly. Gomez hit eight fours in 74 /

A welcome wicket

Gomez and Goddard began to move the score along more quickly and Gomez reached his 50 runs in two hours. The stand reached 100 in 110 minutes, but at 100 runs England got a welcome wicket.
